HEAD Commit

Commit: 6a3e46cf51aa41deef63d9184c60ecb04e76b951

Author:

vgutenm <55982040-vgutenm@users.noreply.replit.com>

Date: May 6, 2026 11:01:36 PM

Update website configuration and content for
production deployment

Adjust Vite configuration, remove unused routes and
components, and update cPanel deployment settings
to ensure proper production build and deployment.
